

PAL-II Reading & Writing—More Than An Assessment... It's An Intervention Roadmap!

Now featuring
 an enhanced
 User's Guide!

The *Process Assessment of the Learner™-Second Edition, Diagnostic Assessment for Reading and Writing (PAL™-II Reading and Writing)* measures the development of psychological processes directly related to the acquisition of reading and writing skills. It helps struggling learners with learning disabilities in reading and/or writing to increase their proficiency and progress with these skills.

PAL-II Reading and Writing is your answer

to understanding WHY a student has difficulty in reading and writing

- Targets the assessment by identifying specific subtests to administer related to suspected disorders or referral issues
- Links to corresponding research-based interventions and lessons
- Detects reading difficulties using morphology measures for students in kindergarten through middle school students
- Includes working memory measures designed to be sensitive to reading decoding, reading comprehension, and writing problems
- Assesses both productivity and quality within the writing tasks
- Helps in formulating a diagnosis of dyslexia

OVERVIEW

K to 6

Norms

Scaled Scores and base rates

Administration

Time depends on the purpose of the assessment: Tier 1, Tier 2 or Tier 3

Qualification Level

B

Enhanced User Guide

Evidence-based design for use at all RTI Tier levels—subtest selection, interpretation, and interventions.

- **Designed to fit the way you want to use it:** Works on any operating system, computer, tablet, or device that can display Adobe Acrobat (.pdf) files
- **No more disks:** Downloadable from pearsonclinical.com. Web delivery allows use on newer devices without CD-ROM
- **Improved navigation:** Offers easier access to effectively use this powerful tool
- **Ability to print lesson sheets for use with students**

The perfect companion to PAL-II Reading and Writing—PAL-II Math

PAL-II Diagnostic Assessment for Math measures not only basic math skills, but the development of cognitive processes related to the acquisition of math skills.
