## A Study of the Stanford Achievement Test Series, Tenth Edition (Stanford 10) Alignment to the Common Core State Standards

With the June 2, 2010, release of the Common Core State Standards, state-led education standards developed for K–12 English Language Arts and Mathematics, Pearson Learning Assessments and content experts conducted an in-depth study to analyze how the Stanford 10 Achievement Test Series, Tenth Edition (Stanford 10) and Stanford 10 Online items\* align to the new standards.

The study included analysis of all standalone and passage-based items on Form A of the Stanford 10 English Language Arts (ELA) and Mathematics subtests for K–12. Overall, 100 percent of the Stanford 10 English Language Arts items align to the Common Core State Standards, and 98.5 percent of the Stanford 10 Mathematics items are in alignment.

Details and examples of the alignment process conducted are included in this publication, along with more information about the Stanford 10’s relationship to the Common Core State Standards.

\*Stanford 10 Form A items were aligned to the Common Core State Standards. There has been no claim that any Stanford Form adequately assesses the Common Core State Standards. This document only relays information about how well Stanford Form A items align to Common Core State Standards.
